(For example by Sepia, red, gold, etc.)

FIP DEFINITION OF COLOUR PHOTOGRAPHY:

The subject matter is unrestricted for PID images in separate colour and monochrome section. There may be a theme specified for some PID Salons and the exhibition's definition of the theme should be consulted. Use of Computer generated graphics is totally restricted except in Creative thematic section. All element of the image must have been shot by the author. No part of the image should have been taken from Net or other person's image. Use of some filters available on net is permissible.

Same images either color or mono in two different sections of the same Salon will result in disqualification for both the images.

FIP DEFINITION OF NATURE PHOTOGRAPHY:

Nature Photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology* and archaeology*, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation. (Suggested*: An example will be helpful to the New Jury). The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality.

1. Human elements must not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.

6. It is perfectly legal to remove dust, flares or digital noise. Minor global colour / tone correction is OK as long as it is not selective and the final image looks natural but not dramatic. Dodge and Burn tool is for you only but use it judiciously. Selective darkening of background is prohibited. Techniques like panning, slow shutter speed or in-exposure zooming are part of your creativity. Use of filters like Polarizers and NDs are ok.
7. Drone Photography in the National Parks of India is illegal except with prior written permission from the concerned authorities.
8. Welfare of the subject is extremely important. Use of live bait is totally prohibited. Relocated nest is a big NO NO and jury members should not award Nest images. Images entered in Nature section meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter.
